PRIMARY EXAMINER

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 33-41 to invention non-elected without traverse since applicant failed to traverse the examiner's action mailed on November 10, 2004. Accordingly, claims 33-41 have been cancelled.

The following is an examiner's statement of reasons for allowance: As taught by applicant at pages 8 and 9 of the specification, different methods of waste-gas desulphurization would yield WDP gypsum particles having different particle sizes or dimensions. The art of record US Pat. 5,169,617 to Clemens et al teaches the use of particular parameters in obtaining a particle size of less than 200 μm supporting the position of applicant. The primary reference US Pat. 6,299,970 to Richards et al teaches employing various types of gypsums at column 5. Applicant's examples on page 16 of the specification shows unexpected superior shrinkage resistance of the instant WDP gypsum over native (natural) gypsum, and thus such showing would overcome the obviousness rejection of US Pat. 6,299,970. The secondary reference (US Pat. 5,169,617) would fail even before a combination with said US Pat. 6,299,970 since a selection of WDP gypsum particles obtained by the waste-gas desulphurization

is needed in said US Pat. 6,299,970, and applicant has shown unexpected superior shrinkage resistance.

Note that claims 31 and 32 are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tae H. Yoon whose telephone number is (571) 272-1128. The examiner can normally be reached on Mon-Thu.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on (571) 272-1119. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
